DETAILED ACTION

1. The amendment filed January 26, 2007 is entered and claims 1 and 3-7 are pending.

Allowable Subject Matter

2. Claims 1 and 3-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: the claimed invention is directed to a computer keyboard for inputting data.

Independent claim 1 identifies a uniquely distinct feature "wherein, upon resuming a connection with the computer system, the keyboard microcontroller (MCU) sends the character code stored in the memory unit to the computer system after the keyboard resuming the connection with the computer system, receives the bitmapped graphic pattern corresponding to said character code returned from the computer system, and then sends the bitmapped graphic pattern to the monitor microcontroller (MCU) for driving the monitor to display the bitmapped graphic pattern on the monitor".

The closest arts, Barrus et al. and Patrick et al. as discussed in the previous Office action, either singularly or in combination, fail to anticipate or render obvious the above limitations obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on
